

Home Office & NHS Trust Supply & Projects

We provide high quality vandal resistant lighting specifically targeted at the UK/Eire Home Office/Ministry of Justice Prison & Custodial Departments. We have developed with the Home Office/Ministry of Justice over many years an ever changing range of fittings which meet the stringent standards required for installation in custodial 'sensitive areas' & are still currently updating the range to meet the current & ever changing specification.

With recent investment over the past few years from various NHS Trusts throughout the UK into new build & redevelopment of mental health care units we now have a dedicated anti ligature range of luminaires to meet the new more aesthetically pleasing appearance of secure luminaires required for the NHS environment.

We have supplied the UK & International Prison Authority/NHS for over 15 years supplying the Prison Cell lighting & circulation areas on many numerous projects, listed below are a small selection of HMP Prison/HMP Hospital & NHS Trusts & projects undertaken over the last 5 years.
